

General Casualty in real time

General Casualty® wants to give you the tools you need for continued success. We offer a variety of real-time features to suit your diverse automation needs.

Real-time offerings

Agents can access information from the General Casualty Web site without leaving your agency management system.

Availability may depend on state and line of business.

For personal and commercial lines policies, real-time transactions include:

- Billing inquiry
- Policy dec inquiry
- Claim inquiry
- Web site login
- Personal lines auto rating bridge (state specific)
- Online changes for auto, home and umbrella (state specific)
- Commercial BOP bridging (state specific)

Management system vendors include those using IVANS™ Transformation Station, AMS TransactNow® and Stone River™ FSC - ServiceLink™:

- Applied Systems
- AMS
- Stone River – FSC
- XDimensional Technologies
- Hawksoft

Third-party comparative rating systems for real-time rates and bridging of personal lines business include:

- Stone River FSC MI Rater RT
- EZLynx
- Vertafore™ – SilverPlume
- Semcat

Availability may depend on state and line of business.

Download capabilities

General Casualty offers download and initial loads for personal auto, homeowners, boatowners, personal inland marine, commercial BOP, contractors BOP, business auto, workers' compensation and direct bill commissions.

Future offerings

We continue to improve and develop Web site, real-time and download services. In the future, look for:

- Additional comparative rating vendors
- Real-time what-if rating scenarios through vendors
- Online changes for auto, home and umbrella (all states)
